

Portable Industrial Quad Lights

Portable industrial lighting for demanding environments

Extremely durable, the Quad Light resists breakage.

Available in 4x17- and 4x32-watt models, provide the ultimate in durability, flexibility and illumination of wide areas.

Don't compromise on the quality of wide-area temporary lighting in demanding environments.

K&H Quad Lights provide twice the light output of similar products, but are 20 percent lighter in weight. Integrated, covered outlets allow daisy-chain connection for greater flexibility.

A multi-level lamp protection system provides extreme durability with rubber end caps and field-tested lamp shock absorbers.

Parallel wiring keeps other lamps functioning should one fail. Available in 17- and 32-watt models, these rugged Quad Lights feature:

- Lamp shock absorbers and impact-resistant coated lamps protect against breakage due to accidental drops or falls.
- Easy tool-free relamping.

From aircraft manufacturing to utilities service, K&H Quad Lights have thousands of hours of experience in the world's most demanding jobs.
